

## GALVANIZED AIRCRAFT CABLE

### 7 x 7 x 7 Construction Cable Laid Ropes

A cable laid wire rope is constructed of smaller diameter cables which have been closed in to a finished wire rope. For example, if you need 7 cables of 1/16" 7 x 7 and closed them into a wire rope you would have a 3/16" diameter 7x7x7 containing 343 individual wires. The end product is a highly flexible, strong wire rope that can be spliced easily into slings or other assemblies. Adscos offers cable laid wire rope in the following diameters:

APPROX. WEIGHT 100 FT. IN LBS.	MINIMUM BREAK STRENGTH IN LBS.	PART NUMBER	DIA. IN INCHES
<b>7 x 7 x 7 GALVANIZED</b>			
3.36	1,750	GC 156777	5/32
5.82	2,800	GC 188777	3/16
