- | | |
|---|---|
| <p>1) DIMENSIONS
a) Length
b) Diameter</p> <p>2) CONSTRUCTION
Number of wires per strand
(3,7,19 & 37 wires)</p> <p>3) GRADE OF STRAND
Breaking strength of strand required.
Example: COMMON SIEMENS MARTIN,
HIGH STRENGTH (HS), EXTRA HIGH
STRENGTH (EHS), UTILITY GRADE.</p> | <p>4) ZINC COATING
Class A, Class B, Class C</p> <p>5) PACKAGING
Strand will be furnished on a wooden reel or
in a coil, depending on length, diameter and
construction.</p> <p>8) SPECIFICATIONS
ASTM, Federal or REA specifications as
required.</p> |
|---|---|

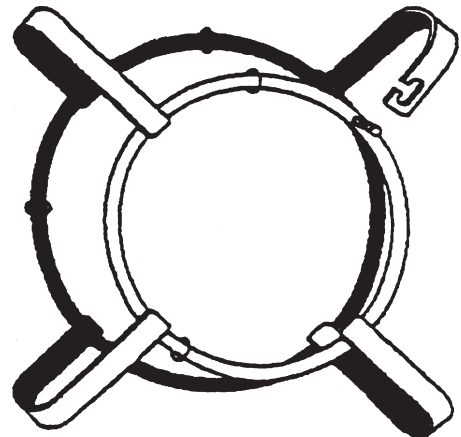

CALL ADSCO LINE PRODUCTS ON YOUR NEXT STRAND REQUIREMENTS.

**Remember – Adsko strand is "Level Wound" on reels.*

GUY STRAND HOLDER

Hot Dipped Galvanized

The guy strand holder safely and conveniently holds a coil of strand wire. It allows for easy handling of the wire and prevents it from getting out of control. The holder may be permanently mounted or carried to the job site by hand. Wire is paid out from the center.
